The main living areas feature sound-insulated walls, durable linoleum and carpet flooring, and a spacious kitchen equipped with double ovens, ample cabinetry, and all major appliances. A massive walk-in pantry provides exceptional storage space, while the adjoining dining and living areas are ideal for family gatherings. The primary suite is a true retreat with a relaxing soaker tub, separate shower, and double sinks with pull-out drawers for added convenience. The walk-up basement is plumbed and ready for future development, giving you room to grow. Built with strength, efficiency, and comfort in mind, this home showcases ICF (Insulated Concrete Form) construction — a modern building method that combines reinforced concrete with insulation to deliver superior durability, energy efficiency, and soundproofing.** ICF walls are highly resistant to extreme weather, provide consistent indoor temperatures year-round, and significantly reduce heating and cooling costs. Step outside and embrace the tranquility of country living. Enjoy morning coffee on either the front or back deck, both overlooking wide-open prairie views. The property includes an insulated double attached garage (with gas line, 30-amp plug, and electrical panel), an invisible dog fence, and secure barbed-wire fencing suitable for pets or livestock. Additional highlights include a high-producing 13-gallon-per-minute
